

## Wind Energy Means Support for Local Schools, Roads, Senior Services & More

**Tuscola County received more than \$4 million in revenue from wind development in 2014.**

"In the case of the county, we could not have supported the service base at the level we're able to now without that revenue [wind revenue of \$4 million in 2014]. It has been a life preserver. There's no question we would have had to make more severe changes."

-Mike Hoaglund, Controller  
Tuscola County Advertiser  
3-5-2016
